

The Next Generation Network (NGN)

The NGN seeks to facilitate a successful transition into the power systems industry for early career professionals and students by providing technical resources and networking opportunities for personal and technical development. The NGN aims to ensure that the interests of new members are represented within CIGRE, both for their own benefit and for the future sustainability of CIGRE.

Our Goals:

- To encourage active membership of CIGRE NGN both for the benefit of NGN members and the NGN group.
- To facilitate active participation in CIGRE Working Groups (WGs) and other CIGRE technical activities.
- To organize and promote activities, such as technical visits, tutorials, and meetings for the CIGRE NGN.
- To organize appropriate CIGRE NGN networking events.
- To report to the CIGRE Steering Committee on a regular basis.
- To prepare and maintain a CIGRE NGN web page.
- To improve communication between CIGRE and NGN members.

Become a member & get involved:

You can join the NGN through your National Committee's NGN Group.

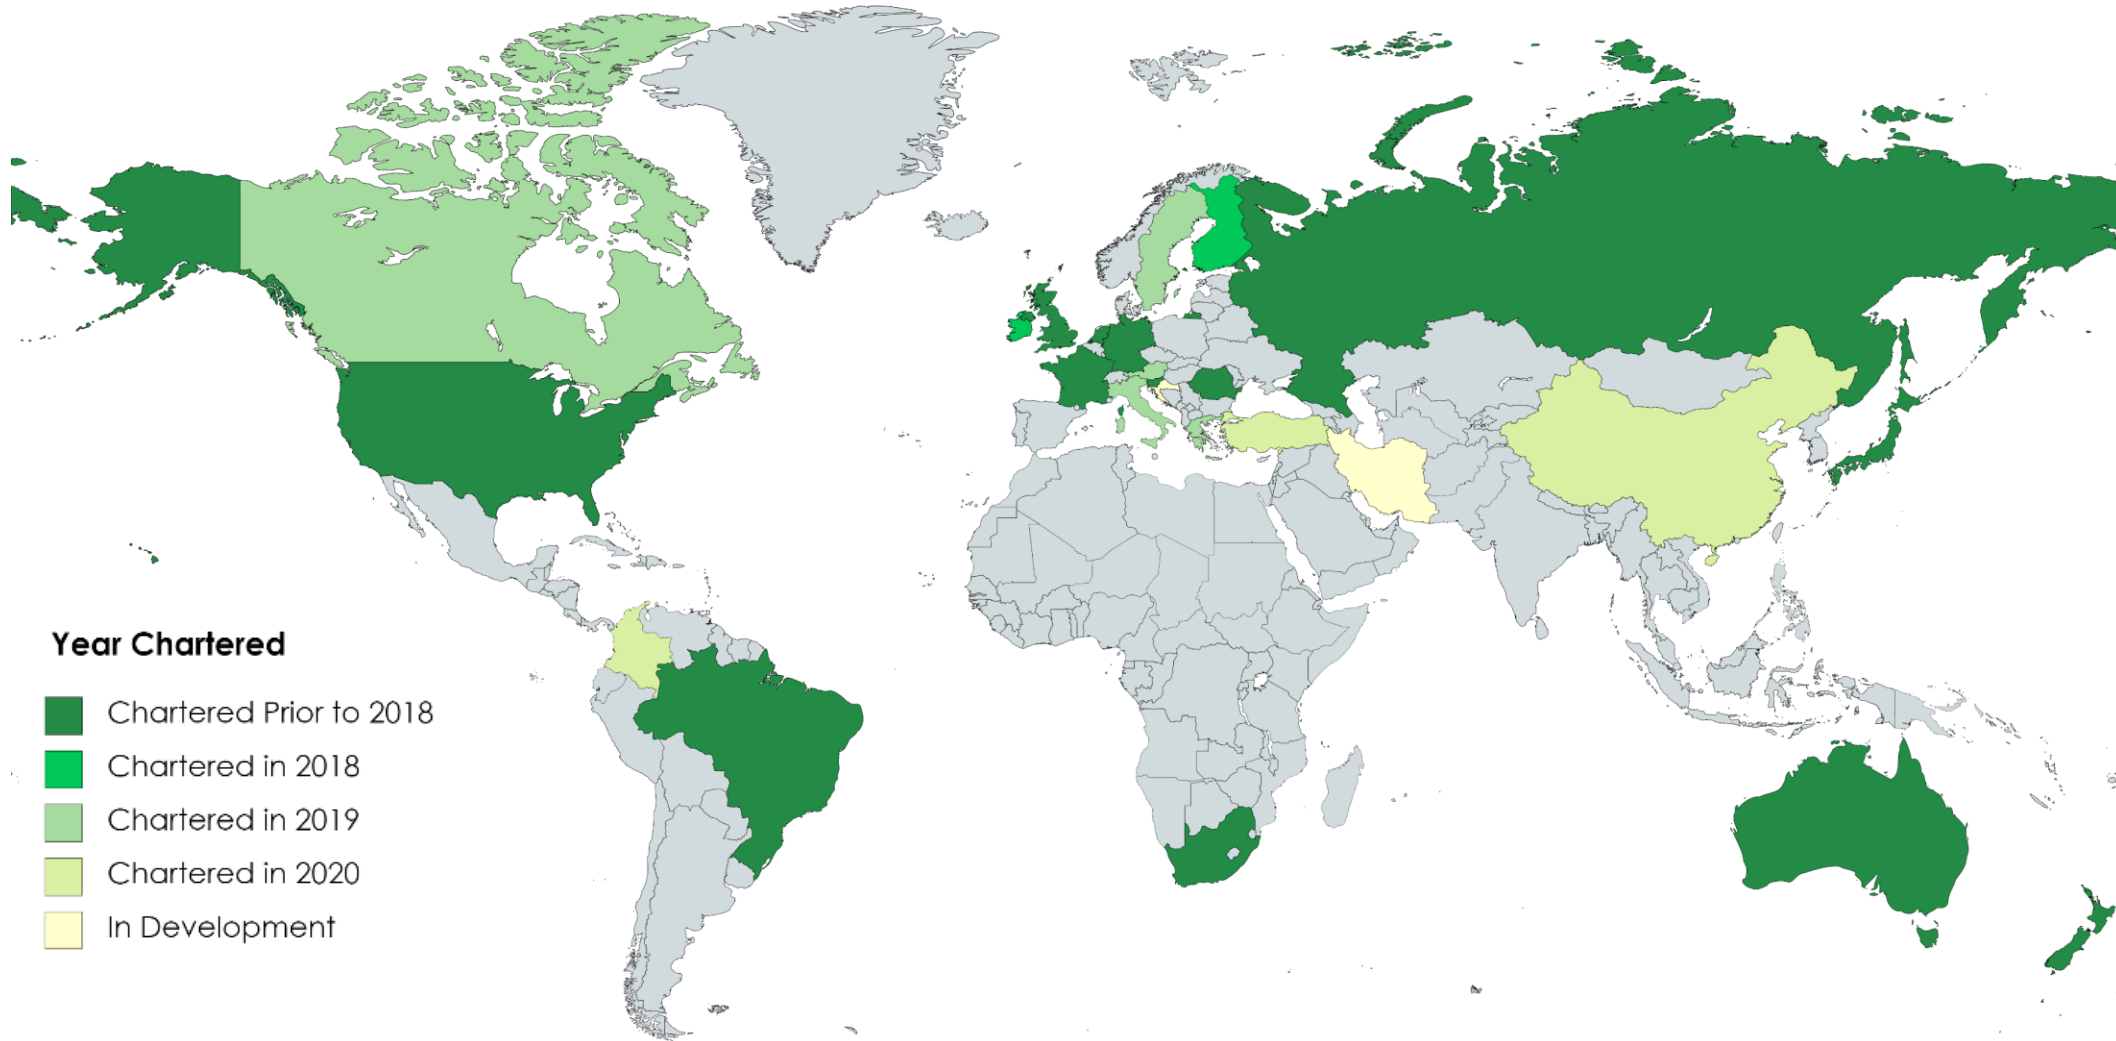

If you don't know who to speak to, or your country doesn't yet have a group, [get in contact with us.](#)
