June 2020 - Future Optimisation of Onshore/Offshore Wind in UK & Ireland: CIGRE Ireland NGN and CIGRE UK came together for their first joint, online webinar on the theme of wind energy with industry professionals from both countries delivering interesting presentations.

September 2020 - CIGRE Ireland NGN Presentation Competition: Presentation event saw eight presenters showcase recent project work to a panel of distinguished industry judges. This event enabled participants to continue to develop their communication and presentation skills despite the challenges of remote working.

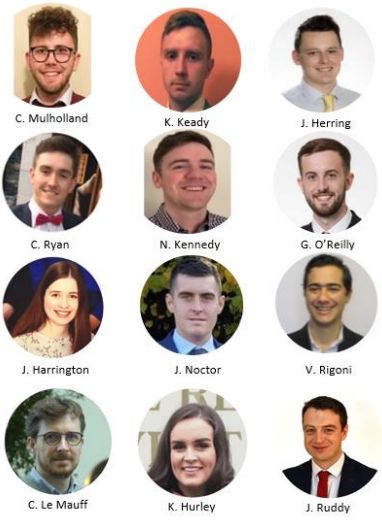

December 2020 – Providing Power During the Pandemic: Four industry speakers discussed how COVID-19 has altered the direction of the power industry, forcing innovations not only in the way we work, but in how we manage and operate the grid.

February 2021 - CIGRE Ireland NGN Presentation Competition: Event hosted to select nominees to be considered by CIGRE for a chance to present at the Centennial Meeting. The Irish NGN committee nominated Mr. Tolulope Mayomi and Mr. Gurasees Singh for consideration by the relevant study committee chairs.

- Currently on the Irish Transmission system,
 - ✓ 0.026 TWh of installed (new) Energy capacity on the island of Ireland.
 - ✓ There is over 250 wind farms in the Republic of Ireland.
 - ✓ Ireland's largest wind farm is located in the west of the country with an installed capacity of 166 MW.
