

JAPAN

33 young members

- Founded: 2013
- Membership number growth: 2.2 times from foundation
- Event preparation: Contribution for national/international CIGRE events
- Liaison between foreign countries: Periodical communication between AORC countries

● Regular meeting

Regular meeting is held once every few months. The meeting is usually face-to-face meeting, but web meeting is also held sometimes.

In regular meeting, we introduce our activities (e.g. SC meeting, international conference, etc.) across SCs.

● Technical tour

JP-NGN joined inspection tour of Fukushima nuclear power plant in December 2019.

The nuclear power plant experienced severe accidents caused by huge earthquake and tsunami on March 11, 2011, and still in the process of decommissioning.

We discussed decommissioning process and future plan of nuclear power generation with staff members in the plant.

● CIGRE event planning

JP-NGN plans YM events in national/international CIGRE events in Japan. The next plan is YM event in symposium 2022 in Kyoto, Japan.

Regular meeting

Inspection tour of Fukushima nuclear power plant

Our vision is “CIGRE JP-NGN aims to support the growth of next generation professional to be active globally via networking in perspective of young member”.

“Perspective of young member” is a very important factor on our activities and we keep exploring what it should be.

Thus, we develop our action plans and we can have great opportunities for our growth through CIGRE NGN!

Yu Takamizawa
Chair of JP-NGN
